

DATASHEET SolarSynergy™

Solar hybrid product combining solar water heating and solar PV into one elegant roof integrated framework.

Developed with project partners, PV Systems, largest supplier of BIPV* in the UK.

**BIPV - Building Integrated PV*

SolarSynergy™ offers the benefits of both solar electricity and solar water heating in a one-stop-shop. Meaning you can make savings, cut emissions and lead the way towards an era of clean energy on two-fronts.
